

Impact Report

JANUARY - JUNE 2023

HUMAN RIGHTS EDUCATION

Through collaborations with Yale Divinity School, the John Leland Center, and other partners, Justice Revival has **educated pastors, seminarians, university students, and others** across the country on the Christian basis for human rights and equality under the law.

ERA ADVOCACY

As the **Equal Rights Amendment** has advanced this year, we have shown our support at key events on Capitol Hill, mobilized people of faith to contact their elected officials, and advocated directly with the U.S. Senate Judiciary Committee in written testimony for its hearing on the ERA.

THOUGHT LEADERSHIP

This year, Justice Revival has continued to serve as a bold **public voice of faith support** for human rights, equality, and the Equal Rights Amendment through keynote remarks, media and podcast interviews, and articles in *Sojourners* and *Religion News Service*.

2

seminary workshops on human rights taught for current & future faith leaders

5
